

# SAID CHARLES KIWAN JURGEN E. HERRE

## Directors of MVP Tech G.T. LLC

### FIRM PROFILE

Engineering Driven by a vision that engineering is the foundation of innovative solutions, MVP Tech has grown exponentially over the last 15 years, since its foundation in 2003, bridging the gap between local knowledge and international offerings. MVP Tech has built a reputation as the security and IT systems integrator of choice for some of the most iconic projects in the UAE, GCC and South America, and is trusted to execute diverse and complex projects for the Government, Military and Defence, as well as across the private sector.

The ability to recognize and adopt market evolutions has been a mainstay of the company, driven by the Founder's vision of remaining relevant and building trust in a constantly-changing industry environment. MVP Tech has successfully navigated customers through market transitions such as Artificial Intelligence and Video Analytics, Converged Security & Information Management, and has invested in an all-new MVP Tech Cybersecurity division in partnership with a leading global defence contractor Leonardo and ERP division in partnership with Oracle NetSuite.

MVP Tech envisions a future of hyper-connected and fully automated entities, operating across territories, responding to human behavioural traits without human intervention, and increasing the level of productivity and efficiency exponentially. Building on its multi-sector and multi-specialty experience in preparation for this future, MVP Tech is moving towards building fully-integrated platforms that allow for the in-depth analysis of combined data sources, creating the opportunity for strategic, centralised intelligence at a single location.

MVP Tech has become a leading player in the security & IT systems integration world.
