

The MDC Micro DataCentre DC-ITSafe Family

HighDens Edition

Office Edition

MDC Micro Data Centre **DC-ITSafe**: protection against all physical threats

Fire

Fire-fighting water

Corrosive gases

Vandalism

Unauthorized access

Eavesdropping / Radiation

Explosion

Noise

Dust

Debris

MDC Micro Data Centre **DC-ITSafe**: Technical details

Redundant power and cooling

Modular (can be interconnected up to 4 MDC)

Protection and Certification against:

Fire / Burglary / Water / Dust / Smoke / Gas / Debris / EMP / Explosion

Energy-efficient inverter technology

19" early fire warning and extinguishing system

Monitoring- and energy-efficiency systems

Fast delivery time (4 to 6 weeks)

Plug & play and fast installation time (5 days)

MDC Micro Data Centre **DC-ITSafe**: Design Features

Modular **Micro Data Center**

Made of **steel (made in Germany) sheet cassettes**, finish RAL 9006 (aluminium white), doors RAL 3020 (traffic red)

Inside the elements is this **fire protection** material

Scalable (interconnect up to 4), even movable and replaceable

Patented – from the inside - "click" assembly method

Self-locking, automatic locking with best **German quality swing bolts and seal**

Increased insurance cover by automatic multiple locking of VdS* class B

Proprietary technology with German Based Research & Development

* VdS is the German National Insurance Companies Association

MDC Micro Data Centre **DC-ITSafe**: Design Features

- **Dimensions:**
 - W 1452 x H 2185 (56 HU) x D 1470 mm
 - W 1452 x H 2425 (62 HU) x D 1470 mm
- **For rack dimensions 800 (D) x 1200 (W) mm:**
 - 50 HU horizontal + 12 HU vertical = 62 HU
 - 44 HU horizontal + 12 HU vertical = 56 HU
- **Space-saving double-door system**
- **4 pcs. soft ducts, hard ducts DN 200 as option**
- **Specials such as:**
 - Various access control options
 - Special sizes upon request
 - Special colour doors
 - Colocation racks
 - Other options upon request

MDC Micro Data Centre **DC-ITSafe**: Interconnecting up to 2, 3 or 4 times

MDC Micro Data Centre **DC-ITSafe**: Test Certificates

- EI 90 as **free-standing system test fired from 5 sides within EN 1363** with at least 40 minutes compliance within limit values (50 K temperature increase and rel. humidity <85%) within EN 1047-2.

- **Burglary protection RC 2** following EN 1627
 - Can be upgraded to RC3 or RC4 according EN 1627

- **Smoke/water protection IP 56** acc. to EN 60529

- **Smoke/gas protection** following EN 1634-3

- **Explosion protection**

- Protection against debris

- Basic **EMP protection**
 - can be upgraded to full EMP protection

MDC Micro Data Centre **DC-ITSafe**: Equipment and Options

early fire alarm system

monitoring

482,6 mm (19")rack

access control

compact split cooling unit

hard/soft cable duct

MDC Micro Data Centre **DC-ITSafe**: Cooling systems

- Compact split cooling units consisting of one inner unit in the DC-ITSafe and one outer unit for outdoor positioning / fresh air.
- **100% redundancy by 2 inner- und outer units for rack widths 800mm possible (recommended)**
- DX-Inverter technology, refrigerant R410A.
- Improved isolation enabling directed air flow – **cold side // hot side**
- Energy-efficient, savings of 20 – 30 %
- Cooling capacities:
 - 1,6 kW – 4,5 kW
 - 2,7 kW – 6,7 kW
 - 3,3 kW – 8,1 kW
- Additional solutions or capacities (e.g. DX-/CW side cooler)

MDC Micro Data Centre **DC-ITSafe**: Fire detection and extinguishing system

- Early fire warning and extinguishing system (2 U space utilization).
- **3-step security concept:**
 1. Early, highly sensitive smoke detection
 2. Automatic system shut-down
 3. Extinguishing
- Extinguishing process with **Novec 1230 inert gas**
- Units including **power supply and battery buffer**
- Master slave for extinguishing capacity of up to 4,4 m³.
- **Modular, expandable** with slave units (max. 4 pcs. per master), ea. with 4,4 m³ extinguishing capacity

MDC Micro Data Centre **DC-ITSafe**: UPS and battery management

- Proprietary design for battery gas risk management
- Special solution for storing batteries in the safe while managing any potential gas emanating from the batteries.
- 19"UPS placed horizontally in 19"-rack.
- Batteries placed below the inner air conditioning units in special steel-boxes.
- All batteries are connected to a hose system for extraction of any potential battery gas.

MDC Micro Data Centre **DC-ITSafe**: UPS and battery capacities

➤ **Options:**

Version	Power	HU	Number of battery	Autonomy time (approx.)
UPS 3300	3300 VA / 2300 W	4 HU	9 blocks	120 min.
UPS 4000	4000 VA / 2400 W	4 HU	9 blocks	100 min.
UPS 5000	5000 VA / 4500 W	4 HU	16 blocks	120 min.
UPS 6000	6000 VA / 5400 W	4 HU	16 blocks	90 min.
UPS 8000	8000 VA / 7200 W	4 HU	20 blocks	90 min.
UPS 10000	10000 VA / 9000W	4 HU	20 blocks	60 min.

Attention: Maximum (standard) number of batteries per safe:

DC-ITSafe Single: 20 blocks

DC-ITSafe Duo: 40 blocks

DC-ITSafe Triple: 60 blocks

MDC Micro Data Centre **DC-ITSafe**: Additional options.

- **Monitoring and energy management system**
- **482.6 mm (19") uninterruptible power supply (UPS)**
- **Power supply**
- **Power distribution units (PDU's)**
- **482.6 mm (19") rack accessories**

MDC Micro Data Centre **DC-ITSafe**: Unique selling points

Modular, expandable, removable and replaceable **DC-ITSafe**.

System tested! Free-standing system test fired from 5 sides!

40 minutes compliance with the limit values according to **EN 1047-2!**

Standard double-doors! (IT operator side, Technical service side)

More high units (HU) available compared with competitors!

100% redundant air conditioning!

1200 mm rack depth standard!

Air conditioning units comply with industrial standard and are thus designed for permanent operation!

Extremely fast realization = „Time is Money“!

Deployed by global companies as part of their own Compliance and IT Security Policy

PARTNERSHIP

DC-ITSAFE - HIGH DENSITY

SCHLÜSSELFERTIGE KOMPLETTLÖSUNG

DC-ITSAFE - HIGH DENSITY

**POWER DENSE &
EFFICIENT**

CERTIFIED & SECURE

**TURNKEY READY & FROM
ONE HAND**

DC-ITSAFE - HIGH DENSITY

- 20 kW water cooling & 15 kW air
- (60/40°C flow/return temperature)
- 48 HE can be used for IT equipment
- 19" inch standard
- Including pre-installed servers
- Redundant pump system with hydraulics
- Dust-proof & ambient air independent
- Comprehensive monitoring
- Scalable and fast installation
- Waste heat recovery (optional)

PARTNERSHIP

DC-ITSAFE - HIGH DENSITY

POWER DENSITY & HIGH EFFICIENCY

- Up to 50 kW Cooling power in 2 m²
- 20 kW water cooling & 30 kW air cooling
- 62 U in total, up to 51 U useable
- for 19" IT-equipment

PARTNERSHIP

DC-ITSAFE - HIGH DENSITY

CERTIFIED & SECURE

- Modular & linkable
- Redundant cooling system
- Ambient air independent
- System tested EI 90 acc. to EN 13501-2
- Burglar protection RC 2 acc. to EN 1627/EN 1630
- Dust/water protection IP 56 according to EN 60529

PARTNERSHIP

DC-ITSAFE - HIGH DENSITY

ONE STOP SOLUTION

- Ready for immediate use - available ex stock
- Deployable within 2 weeks
- Pre-configured Monitoring
- Operation & Lifecycle-Management

PARTNERSHIP

DC-ITSAFE - HIGH DENSITY

➤ Protection against:

Burglary

Explosion

Radiation

Fire

Vandalism

Unauthorized
access

Noise

Extinguishing
water

Dust

Debris

PARTNERSHIP

DC-ITSAFE - HIGH DENSITY

Advantages of the direct hot water cooling

- High Energy efficiency
- Low AC & power costs
- Optional Heat-Recovery
- Low CO2 footprint

DC-ITSafe Office Edition

DC-ITSafe Office Edition: Product features

- **Plug & Play IT security safe including cooling**
- **Compact and perfectly designed**
- **2 cable ducts**
- **Basic protection against physical dangers**
- **Low noise level, suitable for installation in open-space offices.**
- **Energy efficient^t by directed cooling and air flow with 20 – 30% saving**
- **Operator and service friendly two-door system (operator and service side).**
- **Easy transport by 4-way steel base structure.**

DC-ITSafe Office Edition: Dimensions

Weight **approx.** 450-500 kg

DC-ITSafe Office Edition: Cable box / access control

- **Two cable boxes for the introduction of data cables.**
- **Free cross-section 93 x 33 mm.**
- **100% usable, cable changes or retrofitting are possible if and when required.**
- **Standard key lock system with profile half-cylinder.**
- **Replaceable profile half-cylinder.**
- **Optional: Electronic profile cylinder**

DC-ITSafe Office Edition: Cooling

- **External unit (compressor) positioned on top of the safe, indoor unit (evaporator) within the safe.**
- **Cooling split solution, hermetic separation of outdoor and indoor unit to ensure the physical protection level (smoke gas, fire, etc.).**
- **Cooling capacity 0,6 - 1,6 kW non-redundant.**
- **Special sound-insulated version for the installation in open-plan offices.**
- **Modern control with individual temperature alarm values.**
- **Temperature and malfunction indication.**

DC-ITSafe Office Edition: Equipment

- **Monitoring: DCM-Detection**
- **PDU's (passive or intelligent)**
- **Early fire detection**
- **Early fire detection and extinguishing**
- **UPS up to 3 kVA**
- **482,6 mm rack equipment**

DC-ITSafe Office Edition

Easy transport by
4-way base construction

Outdoor unit (compressor)
positioned on top of the safe

UPS up to 3 kVA

2 Cable ducts

DC-ITSafe Family

Customer References

DC-ITSafe: Inficon (Industrial Equipment), Germany

DC-ITSafe: Mubea (Automotive & Aeronautics), Germany

DC-ITSafe: Hess Druck (Paper & Print), Switzerland

DC-ITSafe: Solvay (Chemicals), Germany

DC-ITSafe: Scania Finance Deutschland GmbH, Germany

DC-ITSafe: SMP (Automotive), Beijing, China

DC-ITSafe: Paar IT, Germany

DC-ITSafe: Bäumer Machinery, Germany

Key facts

- **Single DC-ITSafe**
- Industrial company for machine engineering
- Installed in 2019
- Replacement of an old server room

DC-ITSafe: SBB, Swiss National Train Company

Key facts

- **Double DC-ITSafe (interconnected)**
- First enquiry in April 2019
- Delivery and installation September 2019
- Installation through our Swiss partner
- **Site used to manage AI / forecast of train tracks predictive maintenance and data management**

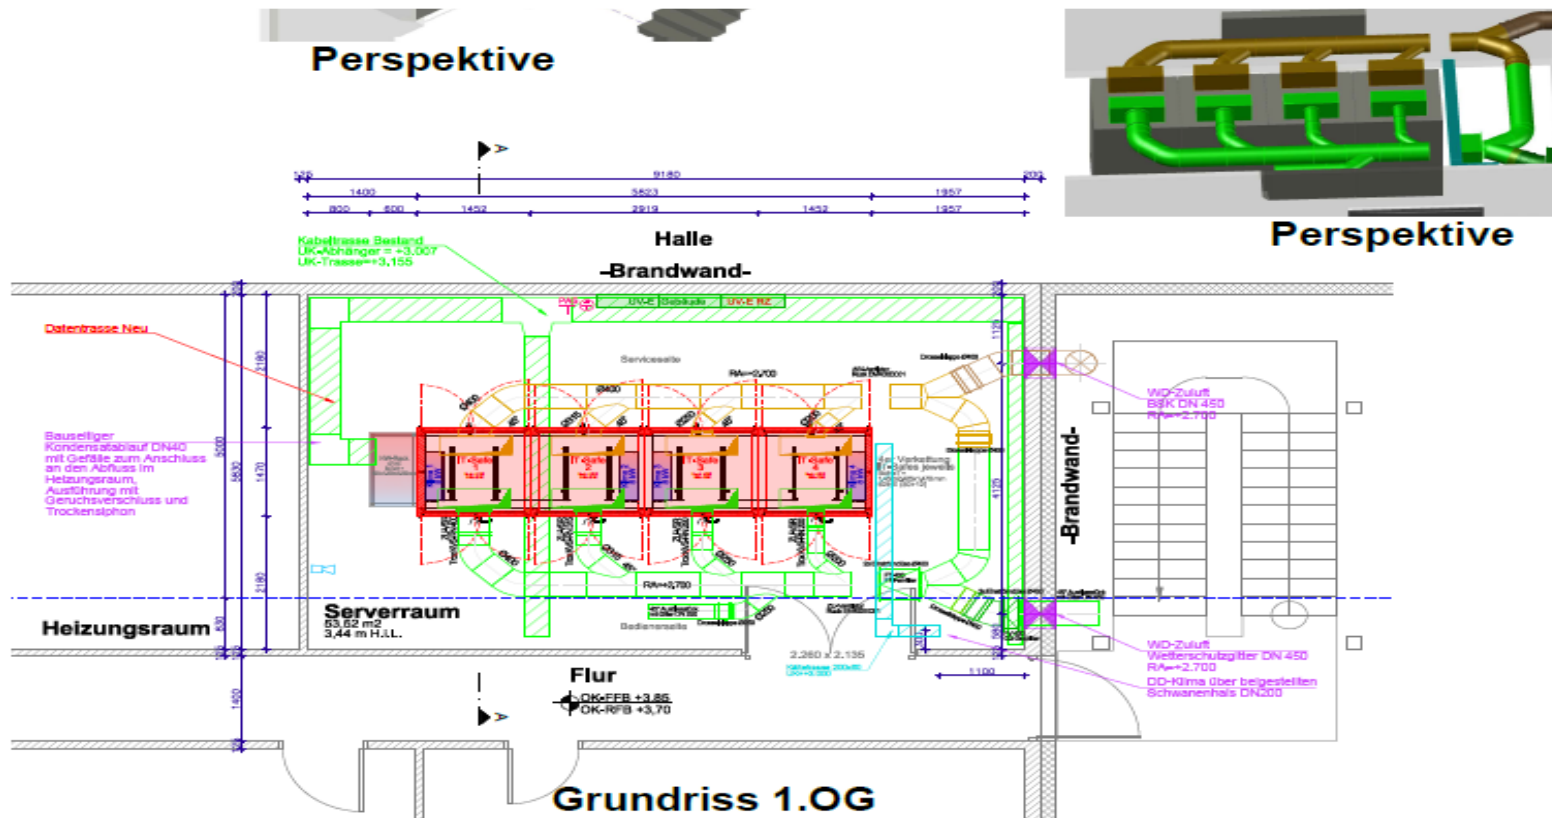

DC-ITSafe: Utility Company, Hungary

Key facts

- **Triple DC-ITSafe (interconnected)**
- Order in November 2019
- Installation in January 2020
- Installation in Budapest City Centre
- Application = Disaster Recovery Site

DC-ITSafe: Pharmaceutical Company, Germany

Key facts

- Quattro DC-ITSafe (interconnected)
- Order in November 2019
- Installation in February 2020
- Installation for a Pharma Konzern
- This project has a **KRITIS** classification.

DC-ITSafe: Delivery to Global Industrial Companies

Key facts

- Global framework agreements
- Clients pushing an **Edge MDC Micro DataCenter Strategy**
- Worldwide deliveries
- Installation through our local partners, worldwide
- **The DC-ITSafe is integral part of the Customer's compliance policy.**

DC-ITSafe

Thank You!
